

Kitchen Mixer Taps

The kitchen sink alone will not do much, but together with the mixer tap, it can do some cleaning wonders. You can choose the first kitchen mixer tap you see or you can dive into deep waters and make a study out of it. You may consider the design, the colour, its functionality...

Alveus kitchen mixer taps are **technologically sophisticated** and come in **various shapes** to complement traditional as well as trendy kitchens.

The numerous varieties with regard to installation, operation and surface finishes allow an abundance of combinations.

For cleaning the Alveus kitchen mixer taps it is best to use a soft cloth, hot water, and liquid detergent for kitchen sinks. Should scale build-up on the tap, remove it with 9 % acetic acid. Silver cleaners, steel wool pads, bleach, or abrasive detergents can damage the tap finish, so they should be avoided. Chlorine detergents (soda hypochlorite) or hydrochloric acid can have a similar effect.

- Taps are made of brass or stainless steel with surface finish **polished chrome (CHR)**, **brushed chrome (CHR-BR)**, **Satin finish (SAT)**, Alveus **colour range** and ceramic nitride (**PVD-treatment**) in four shiny colours (Gold, Copper, Anthracite and Bronze)
- Ceramic discs and metal handles ensure reliable operation and long service life
- Taps can operate with **water pressure from 0,5 to 8 bar** (recommended 1 to 5 bar)
- Several models are fitted with **pull-out spout** and **spray function**
- Taps can be installed on the sink or kitchen worktop
- Some models are convenient for **under-window installation**
- Two flexible hoses with 3/8" connections ensure simple and fast installation to dual (hot-cold) water supply system
- Model Cleo - PS is equipped with three connection hoses and can operate only with cold water supply, delivering hot water instantaneously on demand by means of un-pressurised water heater (usually electric boiler)

Do not forget to hydrate ... with clean water

Monarch collection

Sink mixer Aquila is designed to be **connected to the water filter**, through which water can be cleaned of all contaminants, which impair the quality and taste of drinking water.

Two functional levers make access simple and easy. With the right lever, Aqualia allows using cold and hot water, for ordinary home use, with the left lever you can have fresh, pure to drink, water.

As there are two separated inlet hoses there are also two separated inlet hoses for normal, unfiltered water and another for filtered, drinking water.

Sink mixers do not include the water filter.

Sink mixer Aquila can be connected to water filter designed for household water purification.

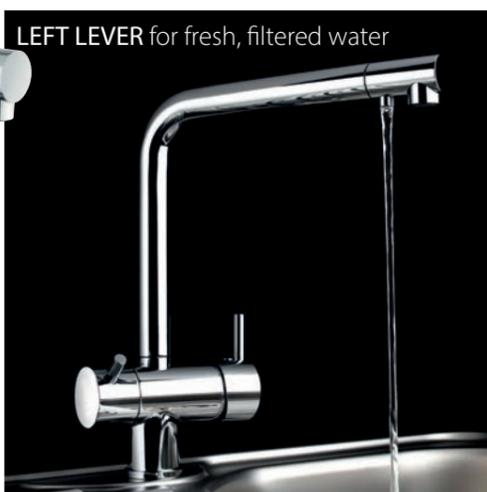

A premium Monarch mixer tap collection is available in four shiny colour shades - **GOLD, COPPER, ANTHRACITE, and BRONZE.**

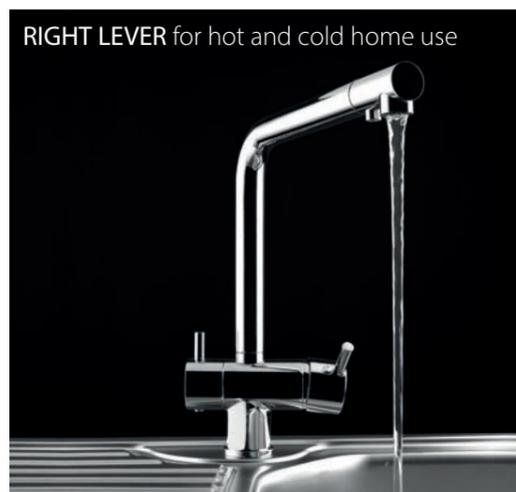

Add an extra touch of elegance and luster into your kitchen with a hint of metal shine in combination with gold, classic inox, or composite kitchen sink.

Aquila
Connectable to the filter

LEFT LEVER for fresh, filtered water

RIGHT LEVER for hot and cold home use

Black is always IN

You can never go wrong with black, also when choosing a kitchen mixer tap.

Mat black kitchen mixer tap in combination with some other or all elements in the kitchen will give your kitchen an industrial look.

Dare to combine black with some gold elements and you will uplift your kitchen to an elegant chic room.

Fancy any other colour?

You can combine the colour of the mixer tap with a kitchen sink, with the kitchen cabinets, maybe with a cabinet knobs, or just go against all "rules" and make a kitchen mixer tap to stand out in its unique colour.

Semi PROFI kitchen mixer tap

Do you enjoy yourself in the kitchen? Really enjoy? **Do you almost feel like a chef?** Then you should consider choosing a mixer tap appropriate to your needs - a semi-professional one. A mixer tap big and flexible enough that allows you easy handling around the kitchen sink with all the pots and pans.

ALVEUS

The handle on top

Do you remember what a challenge it is when you are baking, your hands and fingers are covered in dough, and you really need to get some water or wash those hands? That “mission impossible” to reach the handle! At Alveus we thought also of such ventures.

A kitchen mixer tap with a handle on the top of it is an ideal solution.

Quick and easy access to the handle!

Admiring nature while washing the dishes

More and more kitchens are designed with a view from behind the kitchen sink so that while washing dishes or preparing food, you can admire the beautifully growing plants in the garden or watch the children playing on the lawn.

The kitchen mixer tap would normally stand in the way for you to fully open the window. With the **foldable Columba** or **submersible Norma**, you will easily open a window to water the plants, clean a window, or simply let fresh air into a room.
