ALVEUS

We upgraded the tempered glass kitchen sinks with
Push Pop Up siphon.

We managed to elegantly hide the drainer grid with a magnetic cover and so fuse it with the sink bottom into unified surface. As for managing the overflow we thoughtfully designed a button which only needs a simple push. And because of its shape the Push Pop Up button will not at all disturb your everyday tasks around the kitchen sink.

We expended a diverse offer of tempered glass kitchen sink by adding a
NEW Glassix Up 40 model with a huge and deep bowl in which handling the pots and trays is a piece of cake.
